

# EEX to launch central limit order book for Japanese Power Options

Dear trading participants,

The European Energy Exchange (EEX) will expand its product offering by activating a central limit order book for all Japanese Power Options, effective from **Monday, 2 June 2025**.

Furthermore, in preparation for the launch of the central limit order book for Japanese Power Futures on **22 April 2025**, as previously announced in the customer information [here](#), EEX has updated the trade cancellation fee structure, trade cancellation rules and settlement pricing procedure.

## Product setup

The introduction of the order book has no impact on the product setup or specifications for EEX Japan Power Derivatives.

Detailed information on the product setup is provided in the [EEX Contract Specifications](#).

## Trading hours and settlement window

Following consultation with the market and with the aim to pool liquidity, the order book will be available between 16:00 and 18:00 JST (9:00 to 11:00 CEST / 8:00 to 10:00 CET) on EEX exchange days.

The daily settlement for Japanese Power Futures will continue to take place within the settlement window: 16:30 and 17:30 JST (09:30 to 10:30 CEST / 08:30 to 09:30 CET)

The daily settlement for Japanese Power Options will take place within the settlement window: 16:00 and 18:00 JST (09:00 to 11:00 CEST / 08:00 to 10:00 CET)

There will be no changes to the existing Trade Registration service for Japan Power Derivatives.

Further information on Settlement Pricing Procedure can be found [here](#).

### Trade cancellation fees

The following standard trade cancellation fees in case of a mistrade for EEX Japan Power Derivatives apply according to the [EEX price list](#).

Contracts	Trade Cancellation Fee
Day, Weekend, and Week Contracts	75,000 ¥
Month Contracts	150,000 ¥
Quarter Contracts	225,000 ¥
Season Contracts	300,000 ¥
Year Contracts	375,000 ¥

### Updated Trade Cancellation Rules

In case of a trade cancellation (mistrade) in EEX Japanese Power Derivatives, an objection shall be made without delay, within 10 minutes after execution by contacting EEX Market Operations by phone.

Further information on trade cancellation rules can be found [here](#).

### Technical access

To participate in the Japanese Power Central Limit Order Book, please ensure that you are connected to the external front end (ISV) of your choice through the ETI session. The ETI session must be established by the direct trading participant of EEX before placing an order, as orders and trades cannot be processed without it.

Please note that Touchpoint users must actively request access, as it will not be granted automatically. Please contact EEX Asia Market Operations

(service@eexgrouptouchpoint.com or +65 6340 8466) in case of any questions regarding the admission process.

The order book function will be automatically integrated into EEX TT Screen.

Members trading through the solutions provided by Trayport® Joule® SaaS must ensure the products are included in their workbooks.

E\*Star Energy Trader® (EET) users can independently configure the derivatives in their user interface.

### Regulatory Reporting

Please note that EEX derivatives contracts must be reported under MiFIDII/MiFIR. Therefore, EEX's MiFIDII/MiFIR Reporting Services will automatically be extended to this service.

For further information, please visit our [Japanese Power webpage](#).

Please do not hesitate to contact us in case of any further questions.
