

Hallo Leipzig.

Hello from ECC, the leading clearing house for energy and commodity products in Europe. As part of EEX Group, we have our roots in Leipzig* and 16 offices worldwide. We provide security for our customers, by ensuring the physical and financial settlement of transactions for EEX Group and further partner exchanges. Why are we so successful? We are a team of individual experts that drive forward exciting projects while sharing experiences, celebrating success and creating memories, together. With you as:

(Senior) Information Security Professional (f/m/d)

Your tasks:

You will be in charge of the management and creation of information security policies, standards and implementation guidelines. Thereby you will advise business units and projects in information security related questions and concerns. You will furthermore support and execute information security audits within the institution and at our service providers. Overall, you will support the Information Security Officer in the management of information security.

After all, we value the exchange of ideas, being there for each other and encouraging each other to become better. We call it: the exchange mindset.

You have made it this far – together with us you can go further: Please send your job applications to Michael Schur at jobs@ecc.de or have a look online at ecc.de > Career. You are welcome at any time.

(For encrypted transmission of your applicant details, please contact jobs@ecc.de)

Welcome to our World.

We offer you:

- › Attractive salary package with many benefits including childcare facilities, meal allowance, job ticket, sport and recreational events
- › Personal development thanks to extensive further training opportunities
- › A place in a dynamic and international team within EEX Group and Deutsche Börse Group
- › A long-term perspective in the constantly growing and evolving energy industry
- › Bespoke onboarding plan

The exchange mindset.

You bring along:

- › Solid experience in the field of information security
- › Knowledge of international standards and good practice with regards to information security (e.g. ISO, COBIT, BSI-Grundschutz)
- › Business English at negotiation level
- › Degree in computer science or a related discipline or several years of experience in information security management related matters
- › Professional information security related certifications such as CISSP, TISP or CISA are advantageous
