

# Hallo Leipzig.

**Hello from ECC**, the leading clearing house for energy and commodity products in Europe. As part of EEX Group, we have our roots in Leipzig\* and 16 offices worldwide. We provide security for our customers, by ensuring the physical and financial settlement of transactions for EEX Group and further partner exchanges. Why are we so successful? We are a team of individual experts that drive forward exciting projects while sharing experiences, celebrating success and creating memories, together. With you as:

## IT Security Architect (f/m/d)

### Your tasks:

You will analyse specific IT security policies, standards and guidelines. You will align our business applications with these by identifying the necessary requirements.

Within the framework of conceptual cooperation, you will assist in achieving conformity of our business applications with IT security standards and regulatory requirements. You will also monitor the compliance level in the event of multilateral changes.

You will support our Solution Architects in embedding the information security requirements into the application design. In doing so, you will foster colleagues' awareness for information security concerns.

You will carry out recurring auditing and documentation tasks related to our applications and provide support in assessing risks.

You will advise our Release Managers and operations in the onboarding process for IT-security relevant systems.

After all, we value the exchange of ideas, being there for each other and encouraging each other to become better. We call it: the exchange mindset.

---

**You have made it this far – together with us you can go further: Please send your job applications to Michael Schur at [jobs@ecc.de](mailto:jobs@ecc.de) or have a look online at [ecc.de](http://ecc.de) > Career. You are welcome at any time.**

(For encrypted transmission of your applicant details, please contact [jobs@ecc.de](mailto:jobs@ecc.de) )

---
